DO YOU ADVERTISE?

Virginia.

"To discontinue an advertisement," says John Wanamaker, "Is like taking down your sign. If you want to do business you must let the public know it. I would as soon think of doing business without clerks as without advertising."

A SPANKING MACHINE. The Manchester school board at a

recent meeting discussed the subject of abolishing the rod from the public

The Evening Leader of that enterprising city published an interview with Dr. TAYLOR the State chemist and he gave it as his opinion that the time is not far distant when an electric spanker would be invented and that this would be the most approved way of punishing the unruly pupils. Last summer a boy's eye was put out by an accidental blow with the rod and this has brought the matter of a spanking machine before the public.

Now let the boys during the summer vacation read and ponder this subject. This thing of being spanked by the power of an electric current is something to be thought over seriously.

THE EARLY-LACY SQUABBLE. General JUBAL A. EARLY has come

back at Major J. HORACE LACY in a column and a half card published in the Lynchburg News of Sunday.

The article is a simple rehash and review of what has already been by a special deposit of five hundred printed on the subject, and, though it thousand dollars (\$500,000), with the no new light on the matter. He says, regarding the expected duel:

As to the intimation of some news- Interventor. tirade might produce a challenge from Treasurer all necessary guarantees are paper correspondents, that Lacy's me to him for a duel, I have only to all prizes of this drawing. say that, according to my understanding of the so-called code of honor, if he was a man worthy of such notice, after I had pronounced him a liar and a slanderer in person, as well as in my card, the said code does not entail on card, the said code does not entail on card, the said code does not entail on the said me the initiative.

This paragraph seemed to breathe war, and the idea that Major LACY further information address would challenge him seems to have found lodgment in the brain of the general. Now the matter stands just FUQUA & BOAZ. as it did before.

THE NEGRO'S SERVICES.

The negro did more to bring the duello into disrepute in the South than any other one thing. As soon as he aped the manners of the whites in this respect, the blackness of the code became more than ever apparent. He did a good thing in doing this, now let Block, South Jefferson Street, him follow it up, and serve prize fighting in the same manner. A MINER'S DAY.

affair.

But prize fighting is quite another

The National Board of Mine Workers has declared itself in favor of the movement looking toward the establishment of an eight-hour day in the mining industry.

There is hardly a doubt but what such a movement could be carried out if the mine workers of the country so desire. The question is almost en tirely within the control of the workers themselves as in almost every mine of any consequence in the country the work is done by the quantity and only a few of the men are hired by the day

It will not to any great extent increase the value of getting out a ton of coal and the loss in money will come from the miners themselves rather than from their employers. Taking this into consideration it is hardly likely that the miners will care to disturb the existing arrangement.
